“ *29 years ago, I was introduced to the Crane family. I remember you going with us to go street racing in Aaron's GTO, but we had to dodge the police instead. You were such a cool Mom. You loved fast cars and NASCAR. Like Steve said, you loved your family fiercely and would fight like a mama bear.*

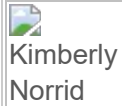

Thank you for taking me into your family and loving me as your daughter. For teaching me family traditions to pass on. You were such a giving, loving, forgiving mother and grandma. I miss you terribly and look forward to seeing you again one day. I can picture you preparing a place for us.

“ *My Grandma, I was your first grandbaby and your first girl after so many boys. I remember wanting you to comb my hair because daddy didn't do it right. I remember how cool I thought it was that when you sped up in your Monte Carlo the radio also went up. I will never forget how much fun I had at your house or the smell of your perfume. Oh how much I miss you and what I would give to spend another day with you. This isn't good
Bye forever but for now. I love you so much.

Connie adopted me after the death of my mother even though I was already her daughter in law. She said she always wanted a girl. I also remember that when somehow something would go wrong she was very passionate about righting whatever it was. We admired that trait in her, and affectionately called it going "connie status". She was also very devoted to whatever she could do to help her children and their children and a very devoted wife, mother, grandmother, sister and friend. She will be missed. I picture her and my mom smiling and waiting patiently for everyone to join them in heaven.
