“ I am the cousin of Hatch and second cousin to his son Anthony. His Mother was my Aunt Rose and I am the daughter of her sister, Mary. I remember going to their house in Livermore and they always visited us in San Lorenzo. After my Mother passed away in 1970, we lost contact and I have always wondered where Hatch, Anne and Tony were. Somehow I found out that they moved to Hawaii, but that was the last I heard. I really miss you all and now, to find out that Hatch passed away is so heartbreaking. Anne, if you read this, I would love to call and talk to you. My personal email is: batmom07@yahoo.com. If we do connect, I will give you my phone number.

“ My family's last visit to Nipomo was great and it always included a breakfast with Anne and Hatch.

My visit a few months ago was also great as Hatch filled my trunk with a printer and some other items. I usually left with plant clippings and cuttings and my favorite plant in my yard came from him. It is a beautiful yellow Trumpet plant! Always so generous.

I still remember our 1st visit, years ago, as we filled your house with 2 families and A LOT of kids. I don't think I ever did figure out how to use the amazing sound system

Miss you Hatch.

*Looking forward to seeing you soon Anne. Lot's of love and kisses from the Loveland Family,
Tom*

“ Anne, Linda and I send our deepest and heartfelt sympathy. My memories of visiting your home in Hawaii will never fade. You two's hospitality and friendship is something I never took for granted. We still have the beautiful print you gave us hanging in our entry.

May the good Lord give you peace and comfort in knowing Hatch is no longer in pain.
