“ Miss krist, i you are to me. Miss marie you called me ... So witty, happy, angelic & bold, funny blunt & sarcastic all in one. You're a delight. Memories of "designer" shopping together - our find, matching LIZ Claiborne green leather jackets & skirts ... I still have mine. Best memories working together in the Ed & then your transition to cath lab. You're sassy Loving tender expert care to all patients was amazing. You made us & clients smile, the job easier, lighter when situations were tough. We shared that awful Cancer Dx also. I miss & love you. My condolences to "puppy" Greg & all your family ❤️❤️ Marie famularo

CR

“ *My thoughts and prayers are with you during this difficult time. I was blessed to have met and work with Kristi. I will always remember her smile, laugh and loving nature. She touched the lives of so many people with her warmth and compassion. I've referred to Kristi as "Hollywood" for many years, after she appeared on TV on behalf of the Fire Department. She glowed on the screen, just as she does in my life. With God's Loving Embrace, Carol Reynders*
