CD

“ *Linda life just will not be the same without you. We haven't been as close as I had hoped for in these last few years. You have never left my heart and never will. We had some great times together and every time I hear the song BlueBiyou it brings a smile to my face because you sang that so beautifully. Love you and miss you dear friend.*

DR

“ *Dear Sis*  
*We will miss you dearly. Growing up we remember you wanting your hair to be perfect and of course you became a cosmetologist. And with that your sisters became your test subjects. But we could always depend on you for new hairstyles and color. We are really going to miss and love you.* ❤️💕😘
