# Tribute Wall

CO

“ *May your soul be free beautiful! My fave memory of you was when we were drunk on the 4th of July and you fell into cactus! We had to pull them out of you and you were such a trooper. I loved going to school with you and doing our fun improv at the house about being old men in a war. It was fun. I am happy you are free from your suffering. I love you. May your family know how very special you are and to allow you to be free now. Your soul will soar and you are free.*
