“ *My Grandmother was one of the most compassionate, intelligent, and determined individuals to ever exist. She faced great hardships throughout her life but never once backed down. She was a Jersey girl. I'll miss her dearly, but even if she's gone I'll always have my memories of her and the lessons that she taught me. I love you Grandma.*

“ *Norma was a dear, dear person. She cared deeply about important political matters and was a fine example of someone that took her civic duty as an American seriously. She was a delightful and competent colleague who was missed long after she retired. --from Shawn Burn*
