“ Steven is my little brother 3 years apart. He was full of life and was the bravest one to explore life 100%. He was amazing and loved people and family. I see you still every day in the memories we made. All the adventures and we roamed life together for so many years. I just wanted for you to come back home so we could live our new lives together. I was not there in your hours of need. I love you forever and couldn't have asked for a better brother and best friend. I have to continue without you but I will never forget you no matter what.
